

Speech-Language Pathologist

Architects For Learning, under the leadership of internationally recognized language and literacy expert Dr. Bonnie Singer, is a thriving private practice in metro-west Boston that serves K-12 and college students whose challenges with language, literacy, executive functions, and/or social communication influence their academic success. We are seeking a certified speech-language pathologist to join our dynamic, multi-disciplinary team.

This is an ideal position for SLPs who are looking to become experts within the field and care deeply about developing and delivering high quality assessment and intervention services. AFL provides extensive opportunities for professional growth and specialization through training, mentorship, multidisciplinary collaboration, and manageable workloads in a supportive and fun work environment.

Responsibilities:

- ◇ **Intervention:** Design and provide individual and small group instruction and intervention focused primarily on listening, speaking, reading, writing, executive functions, verbal memory, social thinking, and learning skills critical for success in school and in life.
- ◇ **Evaluation:** Design and conduct speech, language and writing skill assessments.
- ◇ **Consultation:** Guide parents, schools, and teachers with maximizing student performance.
- ◇ **Parent education:** Develop curriculum to educate parents about how to support their children's language, literacy, social communication, and academic skills.
- ◇ **Professional development:** Grow and share your knowledge and expertise.

Applicants must hold ASHA certification, have at least 1 year of experience working with school-age students, and have or be eligible for Massachusetts licensure.

Full time or part time position available. Start date 8/31/2011. Compensation is commensurate with experience and includes vacation, health, and retirement benefits. Training will be provided in our proprietary instructional approaches, including the EmPOWER™ method for teaching expository writing and Brain Frames® graphics for representing language and thought.

**Additional positions
open
Fall, 2011**

Interested professionals should send a resume and cover letter to Bonnie Singer, Ph.D. at bsinger@architectsforlearning.com.
