

# Care of Magical Creatures

A SUMMER ACADEMIC CLUB FOR THE CURIOUS

Join us for two weeks this summer in one of the classes offered at Hogwarts.

We will explore the feeding, maintaining, breeding, and proper treatment of all sorts of magical creatures: gnomes, fairies, dragons, unicorns, and even werewolves.

Each day, students will learn and practice research-based strategies for reading, researching and taking notes, writing, getting organized, and managing complex writing assignments and projects — all skills they need to thrive in school.

A super fun summer experience for curious kids!

**FOR STUDENTS ENTERING GRADES 4, 5 & 6**

**July 30 to August 10, 2018**

**Monday - Friday, 12:30 - 3:30 p.m. in our Needham office**
